### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 02 February 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-16 is/are pending in the application.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-8 are rejected under 35 USC §112, 1<sup>st</sup> Paragraph. This rejection is set forth in the prior Office action mailed on September, 02, 2005.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-8 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on September 02, 2005.

### ***Response to Arguments***

4. Applicant's arguments filed on February 02, 2006 have been fully considered but they are not persuasive.

Art Unit: 1731

With regard to the rejection under 35 U.S.C. §112, 1<sup>st</sup> Paragraph, applicants argue that the specification need not disclose what is known in the art and argue that the addition of xylan as strength agent is disclosed by the cited reference, i.e., Reinheimer et al. This is not considered persuasive, because there is nothing in the claims stating that the xylan is added to the web, but the web contains the claimed amount of xylan. As claimed the claims read in a pulp that the natural content of xylan has been reduced to the claimed levels and this is not taught by the specification. As explained in the prior action, the conventional pulping process reduce the xylan content of cellulosic pulps to levels which are above the claimed range and therefore, obtaining a pulp with the xylan levels as claimed is not conventional and the steps or process of making such pulps need to be recited. However, if applicants intended to claim a tissue/web in which the claimed range of xylan is added to the pulp or the web, then it should be clearly recited. Note that there is/are basis in the specification for the latter.

With regard to the rejection under 35 U.S.C. §103(a), applicants argue that the cited reference does not teach the upper range as claimed and that that the range is not within the acceptable error limits. The examiner respectfully disagrees, the lower range of the cited reference still within the acceptable error limit in papermaking operation. Moreover, one of ordinary skill in the art would have reasonable expectation of success if the Xylan were added at the claimed range, i.e., he/she would realize that the rupture strength would not be as great as the upper range, but an increase in strength would be expected.

Applicants have not supplied any evidence of unexpected results, i.e., that at the claimed addition range the levels of rupture strength are outside of what would be expected.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to José A. Fortuna whose telephone number is 571-272-1188. The examiner can normally be reached on 9:30-6:00.
